ABOUT

Frontend developer with 5+ years of experience. The core technology is React. I love projects with interesting animation or graphics. Work remotely

EXPERIENCE

Freelance - Frontend developer

Jan 2022 - Aug 2022

Website development for creative and advertising German companies. Their main distinguishing feature is bold animation and brutalism. Collaborated with companies Trixcode and Galo. Work examples: <https://ixa.academy/> | <http://jobs.lucanet.com/>

Kvando Tech - Frontend developer

Sep 2020 - Jan 2022

Outstaffing in two projects. The first is a system for an industrial organization: consulting and architecture design. The second is support and adding new features in a social project (admin panel and billing system)

Curriculum developer / Education Administration / Mentor

IT Academy: Jan 2020 - Jan 2022

Zeon IT Hub: Apr 2022 - Aug 2022

Writing curriculum for programming courses in Bishkek. Teaching, lecturing. Recruiting and training new mentors. Administration of the studying process.

Makeomatic - Frontend developer

Sep 2019 - Jul 2020

Support in an existing project: <https://cappasity.com/>
Platform for creating 3D products on marketplaces

BeelineKG (Veon) - Frontend developer

Jul 2018 - Jul 2019

Work in a startup project using the SCRUM system. B2B service for beauty masters. The masters have a mobile app with calendar and journal and clients have a web catalog of masters with their work photos and the ability to booking time with master. My area of responsibility was creating a web application: <https://aya.kg/>

Maddevs - Junior Frontend developer

Jun 2017 - Jun 2018

Worked on projects related to Eatigo. Billing system - support and development of new features under the guidance of a mentor.
Website for users - support. Merchant service - development from scratch and support
